Machining

Manufacturing

Emergency Repair

Expert On-site Repair

- FAMCO Field Service consists of trained machinists, welders, and mechanics who are qualified to work on most industrial equipment. Our industry-respected, highly skilled field technicians arrive at your job site with the experience, equipment, and professionalism to get the job done right

Mobile Machine Shop

- The FAMCO Field Service operates a fleet of mobile machine shop trucks manned by equipment technical experts. These "mobile machine shops "are equipped with line boring equipment, optical alignment devices, welding equipment, cranes, portapowers, and all the tools needed for a fast turn-around time.

Equipment Install & Rebuilds

- In addition, FAMCO can professionally install new equipment on your existing foundation, and can handle the installation and start-up per your specifications. We can also rebuild and relocate your equipment for you.

Field Services & Support

- FAMCO provides dependable mobile field service & support along with emergency repair service - 24/7
